

Friends & Family Test Data June 2017

The NHS Friends and Family test is a way of gathering patient feedback, so that the practice can continually review our services. During June, a total of 5 paper surveys were returned from our patients and on the whole we are very happy with the results. 100% of patients surveyed said that they would be likely or extremely likely to recommend us to their friends and family. 0% said that they were neither likely or unlikely or didn't know. Only 0% were either unlikely or extremely unlikely to recommend us.

Patient Comments

It is a small practice and small in numbers of staff, all of whom are very friendly & approachable

Not being able to see the same doctor each time and length of time it takes to see your doctor for non urgent appointments

Good doctors

Helpful receptionist. Understanding & professional doctors

Very Friendly & helpful staff (All) Love my Drs & all in my practice
